REFERENCE COPY

NO. OF ENCLS.
(LISTED BELOW)

DO NOT CIRCULATE

SUPPLEMENT TO
REPORT NO.

25X1X

1. In July 1950, the Sovromtransport Shipyard at Galati received instructions from the Sovromtransport Directorate at Bucharest to start on the construction of a floating workshop which was to be named Atelier Flotant SRT (SRT Floating Workshop).
2. The hull of an old lighter was to be used as a base for construction. The vessel was to be equipped with a 40 ton crane fitted aft. This was an old crane which was at the Sovromtransport Shipyards; on board the crane would be electrically operated. However, in September 1950, hardly any progress had been made on this project as priority was given to the construction of four tugs.
3. An elevation and plan of the vessel and dimensions are attached. This represents the vessel as it appeared on the original plans.
